Bespoke options also available.
8 week Lead-time

Design Story

Whistlers Wood lies at the bottom of our garden with an overgrown path showing the way down to the sea. Rather than prune back the overhanging branches, I have made order of them in this rhythmic design.

The Wood is named after Sir Laurence Whistler, the Queen's Glass Engraver who lived in this house from the fifties until 1979. His old studio is now papered in this design.
