**Samples available in principal colourways only.**

Please see HDW colour-card for further colourway options, available to download from our website.  
[Samples@hamiltonweston.com](mailto:Samples@hamiltonweston.com)

Bespoke options also available.

Digital prints take 3 weeks to produce

## **Design Story**

Whistlers Wood lies at the bottom of our garden with an overgrown path showing the way down to the sea. Rather than prune back the overhanging branches, I have made order of them in this rhythmic design.

The Wood is named after Sir Laurence Whistler, the Queen's Glass Engraver who lived in this house from the fifties until 1979. His old studio is now papered in this design.
